## What were the Fund's costs for the last year?

(based on a hypothetical \$10,000 investment)

Fund Name	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
ProFund VP Europe 30	\$171	1.68%

## How did the Fund perform last year?

**VP Europe 30** seeks investment results, before fees and expenses, that track the performance of the ProFunds Europe 30 Index® (the "Index").

The Fund invests in securities that ProFund Advisors believes, in combination, should track the performance of the Index. During 2024, underperformance of international markets, an underweight to technology, and a late-year U.S. dollar rally drove underperformance relative to the S&P 500® Index.

For the year ended December 31, 2024, the Fund had a total return of 4.35% and an average daily statistical correlation of over 0.99 to the daily performance of the Index. For the same period, the Index had a price return of 2.22% and a volatility of 12.22%.

Primary factors affecting Fund performance include the total return of the securities held by the Fund, expenses, transaction costs, the volatility of a Fund's index, and other miscellaneous factors.

## Total Return Based on a \$10,000 Investment

Cumulative performance: January 1, 2014 through December 31, 2024

The chart above represents historical performance of a hypothetical investment of \$10,000 in the Fund over the past ten years (or since inception if shorter), assuming the reinvestment of distributions.
