

Fund Overview

This Annual shareholder report contains important information about the ProFund VP Technology (the "Fund") for the period of January 1, 2024 to December 31, 2024. You can find additional information about the Fund at www.profunds.com/literature/profunds-variable-products. You can also request this information by contacting us at 888-776-3637.

What were the Fund's costs for the last year?

(based on a hypothetical \$10,000 investment)

Fund Name	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
ProFund VP Technology	\$181	1.65%

How did the Fund perform last year?

VP Technology seeks investment results, before fees and expenses, that track the performance of the S&P Technology Select Sector Index (the "Index").

The Fund invests in financial instruments that ProFund Advisors believes, in combination, should track the performance of the Index. During 2024, inclusion of some but not all 'Magnificent Seven' companies drove strong performance that was just a bit below that of the S&P 500® Index.

For the year ended December 31, 2024, the Fund had a total return of 19.80% and an average daily statistical correlation of over 0.99 to the daily performance of the Index. For the same period, the Index had a total return of 21.74% and a volatility of 22.30%.

Primary factors affecting Fund performance include the total return of the securities and derivatives held by the Fund, the performance of the reference assets to which the derivatives are linked, financing rates paid or earned, expenses, transaction costs, the volatility of the Fund's Index, and other miscellaneous factors.
